Comments: Super work on applying a collaborative approach! Your team did an excellent job in taking the target audience through a comprehensive and interactive learning experiences – the industry experts who mentored the project participants added further credibility and strength to your project(s). However, your team did not successfully prove if/how capacity was built and there was no mention of the 'next step' in several of the project(s). The project(s) seem to illustrate potential for continued success; however, the potential can only be proven by making strong strides toward empowering the target group.
